

Are you looking for a full-time position in a global strategic consultancy as a

Medical Writer

to streamline patient access to life-changing treatments through expert guidance, innovative tools, and impeccable delivery?

Location: Hybrid (Office location: Hannover, Germany)

Salary: Competitive, based on experience

We are Kintiga (formerly MAP Patient Access, Axtalis, and SKC), a pan-European specialist consultancy that partners with ambitious health technology developers through the complex journey to achieve successful market access across Europe, with our tailored approach, global perspective and local expertise. Our clients in healthcare and life sciences are leading innovators in pharma, biotech, medtech, digital health, and diagnostics. As part of Kintiga, we support the successful launch and reimbursement of breakthrough therapies and technologies.

Join our team and help shape the future of the cutting-edge healthcare solutions. At Kintiga, we cultivate a collaborative and entrepreneurial culture where every voice matters. We value diversity, openness, and integrity - encouraging our team members to bring their ideas and passion to work every day. Become part of a supportive, dynamic team that thrives on innovation, lifelong learning, and making a meaningful impact in healthcare and life sciences.

How you will create an impact:

As a Medical Writer, you will play a key role in supporting the preparation and submission of AMNOG and JCA dossiers while contributing to G-BA consultations and Joint Scientific Consultations (JSCs). In this position, you will provide scientific expertise and assist with strategic planning to ensure high-quality deliverables. Your responsibilities include contributing to dossier strategies and writing the dossier modules, preparing submissions using tools such as our proprietary EPRI, and actively participating in strategic projects, risk assessments, and price negotiations. Additionally, you will share insights and best practices across teams and support the development of templates, internal tools, and processes to enhance efficiency and quality.

- Execution of consulting projects with a focus on developing market access and dossier strategies, including preparation of corresponding workshops, and participation in oral hearings with relevant authorities
- Independent preparation of benefit assessment dossiers for pharmaceuticals within the framework of the AMNOG process (for further information: [benefit assessment of pharmaceuticals](#)) as well as EU Health Technology Assessments (HTA) in collaboration with our clients
- Scientific and statistical analysis, interpretation, gap analysis, and presentation of clinical study results
- Independent review of scientific literature and preparation and documentation of qualitative and quantitative analyses
- Collaboration in interdisciplinary, agile teams composed of clients and colleagues
- Application of state-of-the-art, AI-supported technological solutions and New Work methods (e.g., Design Thinking, SCRUM, Kanban)
- Active contribution to the continuous development of Kintiga
- Targeted training and professional development in key market access disciplines

About you:

- Doctoral degree in Natural Sciences, Pharmacy, Medicine, or a closely related field
- Ideally initial professional experience in consulting market access, medicine or related field
- Native-level proficiency in German & English and extensive experience in writing scientific texts and communicate in both languages
- Knowledge of the German healthcare system, the pharmaceutical market, and the relevant legal framework
- Experience in interpreting and presenting scientific and clinical data, as well as conducting literature research
- Advanced skills in MS-Office CRM, project management, and data tools (preferred), knowledge of LaTeX is an advantage
- Strategic & structured mindset, analytical thinking, numerical understanding and problem-solving ability
- Reliability and a meticulous & client-oriented approach with a strong commitment to delivering high-quality results
- Excellent organizational, agile and classic project management skills
- Occasional availability to travel
- Multilingual communication skills (preferred)
