

Are you looking for a full-time position in a pan-European strategic consultancy as a

Senior Medical Writer

to streamline patient access to life-changing treatments through expert guidance, innovative tools, and impeccable delivery?

Location: Hybrid with office in Hannover & regular in-person presence

Salary: Competitive, based on experience

We are Kintiga (formerly MAP Patient Access, Axtalis, and SKC), a pan-European specialist consultancy that partners with ambitious health technology developers through the complex journey to achieve successful market access across Europe, with our tailored approach, global perspective and local expertise. Our clients in healthcare and life sciences are leading innovators in pharma, biotech, medtech, digital health, and diagnostics. As part of Kintiga, we support the successful launch and reimbursement of breakthrough therapies and technologies.

Join our team and help shape the future of the cutting-edge healthcare solutions. At Kintiga, we cultivate a collaborative and entrepreneurial culture where every voice matters. We value diversity, openness, and integrity - encouraging our team members to bring their ideas and passion to work every day. Become part of a supportive, dynamic team that thrives on innovation, lifelong learning, and making a meaningful impact in healthcare and life sciences.

How you will create an impact:

As Senior Medical Writer at Kintiga, you will take on a leading role in the content and organizational delivery of market access projects. You will act as a key contact for clients, manage timelines and resources, and contribute to the strategic direction and quality of projects. In addition, you will support team development through coaching, training, and the continuous advancement of methods and best practices, thereby helping to drive sustainable project success and organizational growth.

- Act as end-to-end Project Lead / Product Owner, ensuring high-quality delivery across content, timelines, risks, budgets, and cross-functional workstreams
- Develop and execute medical and market access strategies, including HTA dossier strategy, market access risk assessments, and strategic positioning for price negotiations
- Lead G-BA advice meetings, Joint Scientific Consultations (JSC), and the development, preparation, and submission of AMNOG and JCA dossiers in close collaboration with clients
- Collaborate in and promote interdisciplinary, agile teams, applying modern working methods and driving continuous improvement
- Support business development activities, including proposal development and opportunity identification
- Actively contribute to knowledge sharing, internal capability building, mentoring, and cultural development

About you:

- Master's degree in life sciences, medicine, pharmacy, health economics, or a related field
- 1–3 years of professional experience in the pharmaceutical industry and/or market access or management consulting
- Good knowledge of the German healthcare system and the AMNOG process, including experience with benefit dossiers
- Strong skills in scientific literature research and medical writing
- Experience in project management, as well as conducting and moderating trainings and workshops
- Native level German and excellent English language skills (C2), both written and spoken
- Strong analytical, structured, and detail-oriented working style with a high level of independence and reliability
- Confident communication and presentation skills, including the ability to explain complex topics clearly
- Agile mindset with an understanding of modern working methods and the Product Owner role
- Committed, flexible team player with enthusiasm for complex topics and willingness to travel occasionally across Europe

What we offer on top:

Dynamic work environment with a **highly motivated team**

Exciting **career opportunities** in a fast-growing international business

Entrepreneurial culture, openness, and integrity

A comprehensive **onboarding and mentoring program**

Individual development with extensive training and development programs

Generous annual leave and a permanent position

High-end digital equipment, **AI-based tools** and **hybrid working**

Modern, centrally located office space with a variety of healthy snacks

Attractive corporate benefits: well-being support, E-Leasing, employee events and much more
